**Description**

- The Extbase URI builder should be able to add tokens for specific actions to the URI (if configured)
- The request handling should check for correct tokens (if configured)

This story should be done if time is left from other task of this workpackage

**History**

#1 - 2014-01-31 13:25 - Helmut Hummel
- Parent task set to #55066

#2 - 2014-03-07 01:27 - Helmut Hummel
- Priority changed from Should have to Could have

Not possible for 6.2 any more, but would be nice to have in the future

#3 - 2015-11-24 22:52 - Mathias Schreiber
- Tracker changed from Story to Feature
- Target version set to Candidate for Major Version
- Parent task deleted (#55066)

#4 - 2018-01-24 20:02 - Susanne Moog
- Category set to Extbase
