#### Description

I inject the sessionManager and try to get all active sessions but getActiveSessions() always returns empty array.

Have tried in different contexts and yes I DO have active sessions ;)

I'm running Flow 2.0.1

Code:

```
/**
 * @Flow\Inject
 * @var \TYPO3\FLOW\Session\SessionManagerInterface
 */
protected $sessionManager;

$sessions = $this->sessionManager->getActiveSessions();
```

[BUGFIX] sessionManager->getActiveSessions() returns empty array

This change adds the tag 'session' to all started sessions.  
As SessionManager->getActiveSessions() searches sessions by 'session' tag, nothing will ever be returned if the tag is not set.
