[BUGFIX] Setting capabilities to readonly show always drag+drop dialog

If a driver is readonly, the upload button in the file list disappears, but the DragUploader is still activated - on the whole page. Clicking anywhere on the list page causes an upload file selection to pop up. Additionally the new button is shown but has no functionality. The patch removes DragUploader and superfluous button.

The "new" icon is shown as well which would perform a not permitted action. This could be removed as well (for readonly folder)
