

Faceted Search - Bug #56563

Mandatory \$fe_group argument out of order

2014-03-05 10:09 - Mathias Brodala

Status: Resolved	Start date: 2014-03-05
Priority: Should have	Due date:
Assignee:	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version:	
Description The mandatory \$fe_group argument to tx_kesearch_indexer::storeIndex() and tx_kesearch_indexer::createFieldValuesForIndexing() is placed within optional arguments. Even if PHP allows this, it is good practice to list all mandatory arguments first, followed by optional arguments. Since moving this argument would break a lot of existing custom indexers, a default value like " should be added.

Fixed in current trunk.

Default values for \$fe_group have been added.

Will be in version 1.6.4
