Revision f1612c12 - 2014-03-12 16:39 - Oliver Hader

[BUGFIX] InvalidArgumentException in ActionControllerTest

The cache identifier causing the exception looks like this:
randomviewobjectpattern_@package_mycontroller_myaction_myformat

However, "@package" should be "@extension" in that regard and besides that, the cache identifier using the vendor names shall be used in the tests.

Resolves: #56822
Releases: 6.2
