[BUGFIX] Fix warning during extension installation

During unpacking of an extension in the installation process it can happen that the extension data contains folders in the file list.

These folders need to be removed from the list in order to avoid warnings when trying to write directories as files.

Also remove duplicates from folders before creating them.

Besides fix some (non related) comparisons to strict comparisons on the go.

Resolves: #57261

Releases: 6.2
