

TYPO3.Kickstart - Bug #5833

Inflection viewhelper doesn't work anymore

2009-12-22 18:24 - Robert Lemke

Status:	Resolved	Start date:	2009-12-22
Priority:	Should have	Due date:	
Assignee:	Karsten Dambekalns	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	1.0.0 alpha 7		

Description

While building models (and also kickstarting other types of classes) the placeholders in the Fluid template are not replaced by their real value anymore:

```
/**
 * A {k:inflect.humanizeCamelCase("{modelName}")}
 *
 * @version $Id: $
 * @license http://www.gnu.org/licenses/gpl.html GNU General Public License, version 3 or later
 * @scope prototype
 * @entity
 */
class Paper {
    /**
     * The {k:inflect.humanizeCamelCase("title" lowercase="true")}
     * @var string
     */
    protected $title;
```

Maybe the view helpers don't work with the current Fluid API anymore?
