

aloha - Bug #58821

Compatibility issue with 6.2

2014-05-15 12:45 - Katja Lampela

Status:	New	Start date:	2014-05-15
Priority:	Should have	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
I know it's not even reported to be compatible with 6.2, but I gave it a try and just FYI the error is:			
Fatal error: Call to protected method TYPO3\CMS\Frontend\View\AdminPanelView::extGetLL() from context 'Tx_Aloha_Hooks_Adminpanel' in /var/www/site/typo3conf/ext/aloha/Classes/Hooks/Adminpanel.php on line 76			

History

Hi,

a quick fix: `$this->tslib_AdminPanel->extGetLL('update')`

Regards,
Marco

#2 - 2014-06-26 11:33 - Lorenz Ulrich

I'm currently maintaining a 6.x-compatible fork at <https://github.com/visol/ext-aloha.git>

Maybe the extension author wants to merge this changes to the (not yet available) official repo.

#3 - 2015-03-19 12:02 - Sabine Deeken

Hello together,

a quick fix: `$this->tslib_AdminPanel->extGetLL('update')`

does not work in my 6.2.11 installation (I was trying out the pixelant bitbucket repo)

Fatal error: Call to protected method TYPO3\CMS\Frontend\View\AdminPanelView::extGetLL() from context 'Tx_Aloha_Hooks_Adminpanel' in /meinPfadAufmServer/typo3conf/ext/aloha/Classes/Hooks/Adminpanel.php on line 76

with the best regards,
Sabine

#4 - 2015-03-27 15:08 - layen julian

Hi,

A working fix for TYPO3 6.2.10 >= is

```
$GLOBALS['LANG']->sL(self::ll . 'admPanel.update', TRUE) instead of -> $this->tslib_AdminPanel->extGetLL('update')
```

bye.

#5 - 2015-04-01 16:48 - Kurt Kunig

What's the difference between the left and the right version!?
I don't see one!?

#6 - 2015-04-01 19:55 - Lorenz Ulrich

Just as a friendly reminder, the version currently released in TER is quite buggy. Please download or clone branch "develop" of <http://bitbucket.org/pixelant/aloha>.

Aloha needs to be turned on in the settings of the user. A new release with an updated documentation will follow soon.
