

## Fluid - ViewHelper - Incubator - Suggestion #6007

### form.dateTextbox

2010-01-13 16:59 - Nathan L

|  |            |                        |            |
|--|------------|------------------------|------------|
| <b>Status:</b>   | New        | <b>Start date:</b>     | 2010-01-13 |
| <b>Priority:</b>   | Could have | <b>Due date:</b>       |            |
| <b>Assignee:</b>   |            | <b>% Done:</b>         | 0%         |
| <b>Category:</b>   |            | <b>Estimated time:</b> | 0.00 hour  |
| <b>Target version:</b>   |            | <b>Tags:</b>           |            |
| <b>Has patch:</b>  |            |                        |            |
| <b>Description</b>   |            |                        |            |
| This could maybe be integrated into the textbox element instead of the way I did it in the attached view helper. |            |                        |            |
| The textbox view helper could detect if the property is of type DateTime and then look for a format attribute.   |            |                        |            |

### History

#### #1 - 2010-07-12 12:45 - Bastian Waidelich

- Tracker changed from Feature to Suggestion
- Project changed from TYPO3.Fluid to Fluid - ViewHelper - Incubator

#### #2 - 2010-07-12 13:15 - Bastian Waidelich

- Subject changed from Form textbox for DateTime elements to form.dateTextbox
