TYPO3.Flow - Feature #6142

Class schema must check for entity when setting identity and identifier property

2010-01-21 10:28 - Karsten Dambekalns

Status:	Resolved		**Start date:**	2010-01-21
Priority:	Should have		**Due date:**	
Assignee:	Karsten Dambekalns		**% Done:**	100%
Category:	Persistence		**Estimated time:**	0.00 hour
Target version:	1.0 alpha 8			
PHP Version:			**Complexity:**	
Has patch:				

Description
It should be possible to set identity and identifier properties only when the class schema type is entity

Revision a141272f - 2010-01-21 21:29 - Karsten Dambekalns

[+FEATURE] FLOW3 (Property): The PropertyMapper now only maps to settable properties and no longer relies on the class schema to determine the type for the target property - it uses the setter parameter's type if available and falls back to the class schema if needed. Resolves #5612.
[+FEATURE] FLOW3 (Reflection): When reflecting classes entities and value objects are checked for being declared prototype, resolves #6141.
[+FEATURE] FLOW3 (Reflection): ClassSchema now enforces consistency when it comes to value objects and identity/identifier properties, resolves #6140, resolves #6142.
[+BUGFIX] FLOW3 (Persistence): Fixed left over JCR constant in AbstractSqlBackend, fixes #6153.
