Job Fair - Bug #62572

Filtering not functional

2014-10-30 20:19 - Stefan Wobbe

Description

Hi,

I just tried the new Version 0.1.0 out and everything works like expected but the filtering.

I implemented two filter on the page and no matter wich I use I get a emty result. Also switch
back to all does not work. Firebug doesn't show any error on that page.

Regards,
Stefan

Hi Stefen

Thank you for your Feedback. Can you tell me, which two filter you used?

Best,
Daniel

#2 - 2014-11-01 21:35 - Stefan Wobbe

I use Region and Type but I think that doesn't matter even the Searchbox doesn't work.

Hi

I think I can reproduce the error. It only happens if you use the "Job Type" filter. If I use the "Search Word" filter solo it all works. Can you confirm this
behaviour?

Best,
Daniel

#4 - 2014-11-02 19:11 - Stefan Wobbe

I can partial confirm this behaviour. The "Search Word" filter works like expected but the filter Region switch back to "All" anytime I use it, so no
filtering is happen.

Hi

May I ask you to try it again with the current Version from TER (0.1.1)

Best,
Daniel

Hi

Unfortunately, I get an error message after the update.

Error:
You have an error in your SQL syntax; check the manual that corresponds to your MySQL server version for the right syntax to use near 'ASC' at line 1

Query:
SELECT tx_jobfair_domain_model_job.* FROM tx_jobfair_domain_model_job WHERE 1=1 AND (tx_jobfair_domain_model_job.sys_language_uid IN (0,-1)) AND tx_jobfair_domain_model_job.pid IN (436) AND tx_jobfair_domain_model_job.deleted=0 AND tx_jobfair_domain_model_job.t3ver_state<=0 AND tx_jobfair_domain_model_job.pid<>-1 AND tx_jobfair_domain_model_job.hidden=0 AND tx_jobfair_domain_model_job.starttime<=1416472140 AND (tx_jobfair_domain_model_job.endtime=0 OR tx_jobfair_domain_model_job.endtime>1416472140) ORDER BY tx_jobfair_domain_model_job. ASC

Hi

Open the content onject and save it. Should fix the problem of the missing flexform value. Sorry, forgot to mention that in the update notice...

Best,
Daniel

#8 - 2014-11-20 16:05 - Stefan Wobbe

Thank you for the hint, that did it.

The Filtering is still not working, now it´s even worse than before because I get a white page (error 500)
on each filter I try.

#9 - 2014-11-21 10:29 - Stefan Wobbe

Sorry, the problem was not related to Job Fair.
Seems everything works fine now. Thank you.
