

TYPO3.Fluid - Bug #6297

Not possible to create link to Typo3-Pages with additional piVars

2010-02-01 11:22 - Mathias Gisch

Status:	Resolved	Start date:	2010-02-01

Target version:			
Has patch:			
Description			
If I want to create a link to a Typo3-Page and add additional attributes for old-style pibase-Plugins the Viewhelper throws an exception:			
#1237900520: The argument additionalAttributes was registered with type array, but is of type string in viewhelper Tx_Fluid_ViewHelpers_Link_PageViewHelper			
Try the following:			
<code><f:link.page pageUid="{detailsPage}" additionalAttributes="{tx_ltpdb_test[argument]: 234}">Test</f:link.page></code>			

History

i can confirm this behavior.

#2 - 2010-02-09 12:11 - Anonymous

I can confirm this behaviour, too.

Without squared brackets the link creation works fine. Special characters like squared brackets or their replacements %5B and %5D somehow seem to break the creation of the array.

- File *FluidPatch.patch* added

I found out, how to solve the Problem.

Actually the UriBuilder accepts the arguments with a prefix in the following syntax:

```
<f:link.page pageUid="{detailsPage}" additionalAttributes="{tx_ltpdb_test: {argument : 234}}">Test</f:link.page>
```

This will result in a proper link like this:

```
<a href=".....&tx_ltpdb_test[argument]=234...">Test</a>
```

#4 - 2010-03-15 16:56 - Sebastian Kurfuerst

- Status changed from *New* to *Accepted*

- Assignee set to *Sebastian Kurfuerst*

- Priority changed from *Should have* to *Must have*

#5 - 2010-03-16 16:49 - Sebastian Kurfuerst

- Status changed from *Accepted* to *Resolved*

- % Done changed from *0* to *100*

- Branch set to *v4*
