[BUGFIX] Cannot uninstall packages with dependencies in install tool

Scenario:

- upgrading from Introduction Package with TYPO3 CMS 6.2 to TYPO3 CMS 7
- realurl is marked as incompatible extension to be uninstalled
- realurl is a dependency of bootstrap_package which itself is dependency of introduction

Result:

- resolving the dependencies does not work and thus the uninstall process for realurl fails as well

Solution:

- check whether extension to be removed is a dependency of some other extension
- if so, first remove that extension and afterwards to original extension

Resolves: #63526

Releases: master
