Description

Recent merges removed the module access check in some modules while removing the need to have a conf.php file.

This change now adds it to a central place in mod.php with the benefit that access checks cannot be bypassed any more not even in third party modules, when using mod.php

[BUGFIX] Add module access check to module dispatcher

Recent merges removed the module access check in some modules while removing the need to have a conf.php file.

This change now adds it to a central place in mod.php with the benefit that access checks cannot be bypassed any more not even in third party modules, when using mod.php

Resolves: #63648

Releases: master, 6.2
