Description

How to reproduce:

- Create a link to a file on the header of a regular text element
- reopen link window, select a target
- click update

before: fileadmin/index.html

after: fileadmin%2Findex.html_top

2nd edit: fileadmin%252Findex.html_blank

History

#1 - 2014-12-08 08:09 - Timo Bartholomes

As a workaround I can change the link attributes and close the window by clicking on the file again. This will keep the correct link and will also take all selected attributes

#2 - 2015-05-01 21:45 - Riccardo De Contardi

- Status changed from New to Closed

I close this ticket as I cannot reproduce it on TYPO3 6.2.12 (fresh installation)

If you think that this is the wrong decision or experience this issue again, then please write to the mailing list typo3.teams.bugs with issue number and an explanation or open a new ticket and add a relation to this ticket number.
