Description	
Indexed search still uses the old cobject in two places: typo3/sysex/ext/indexed_search/Classes/Controller/SearchController.php and typo3/sysex/ext/indexed_search/Classes/Controller/SearchFormController.php just to call one method from SearchResultContentObject->register_and_explode_search_string() we should copy the function to indexed search, so we don't depend on deprecated cobject

[BUGFIX] Indexed search broken after moving "SearchResultContentObject"

Indexed search still uses the old cobject in both plugins.

The problem arises in just to call one method from SearchResultContentObject->register_and_explode_search_string()

The necessary functions are moved to the common IndexedSearchUtility.

Resolves: #64716

Releases: master
