Description

Hello,

I wanted to test following issue <https://review.typo3.org/#/c/37483/>
With contained TypoScript my TYPO3 master throws following Exception:

Exception: Serialization of 'Closure' is not allowed

The exception was thrown in last line of GifBuilder->fileName():

```
public function fileName($pre) {
    /** @var $basicFileFunctions \TYPO3\CMS\Core\Utility\File\BasicFileUtility */
    $basicFileFunctions = GeneralUtility::makeInstance('TYPO3\CMS\Core\Utility\File\BasicFileUtility');
    $filePrefix = implode('_', array_merge($this->combinedTextStrings, $this->combinedFileNames));
    $filePrefix = $basicFileFunctions->cleanFileName($filePrefix);

    return $this->tempPath . $pre . $filePrefix . '_' . GeneralUtility::shortMD5(serialize($this->
    setup)) . '.' . $this->extension();
}
```

IMO the line 225 is the problem:

```
$this->setup[$theKey . '.']['BBOX'] = $fileInfo;
```

Here you fill in the complete FAL-System with all recursive/needed Objects. Again: We fill Objects into our lovely text-based TypoScript Array.

With following patch: <https://review.typo3.org/#/c/37485/> the Exception will not appear anymore, but the problem is still there. The Objects are still there. After serializing this structure we have a nearly 100KB string which is needed ONLY to create a unique hash for a file.

Stefan

History

#1 - 2015-03-05 13:04 - Gerrit Code Review

- Status changed from New to Under Review

Patch set 1 for branch **master** of project **Packages/TYPO3.CMS** has been pushed to the review server.
It is available at <http://review.typo3.org/37556>

#2 - 2015-08-05 10:46 - Susanne Moog

- Target version changed from 7.4 (Backend) to 7.5

#3 - 2015-09-24 20:39 - Benni Mack

- Sprint Focus set to Stabilization Sprint

#4 - 2015-09-29 12:07 - Benni Mack

- Target version changed from 7.5 to 7 LTS

- Sprint Focus deleted (Stabilization Sprint)

#5 - 2017-12-04 14:51 - Riccardo De Contardi

- Status changed from Under Review to Closed

- Assignee deleted (Nicole Cordes)

- Target version deleted (7 LTS)

We think it is safe to close this issue; the patch has been abandoned as not needed anymore, thus the issue is no more relevant.

If you think that this is the wrong decision or experience this issue again on recent TYPO3 versions like 8.7.x and 9.0.0, please reopen it or open a new issue with a reference to this one.
