#### Description

The v6.2 static template of `css_styled_content` in the current master is not up to date with changes from the 6.2 branch, namely the title attribute rendering of File Links (see [#60429](#)) and a small style difference.

This should be updated to ensure exactly the same rendering when using 7.x with the v6.2 static template as it is in 6.2 with the latest static template.

[BUGFIX] Update 6.2 static template

The 6.2 static template needs to stay in sync with the latest static template from the 6.2 branch to ensure exactly the same rendering in case it is used with a newer TYPO3 version.
