

File List - Bug #66852

Error in extension manager

2015-05-08 12:12 - Patrick Baber

Status: Closed	Start date: 2015-05-08
Priority: Must have	Due date:

Target version:	
Description	
After installing the latest version 1.1.0 via TER and applying the patch from Revision 85968a74 I get an error in the extension manager, too.	
<pre>"#1: PHP Warning: Invalid argument supplied for foreach() in /var/www/htdocs/typo3_src-6.2.12/typo3/sysext/extensionmanager/Classes/Utility/UpdateScriptUtility.php(111) : eval()'d code line 180 (More information) TYPO3\CMS\Core>Error\Exception thrown in file /var/www/htdocs/typo3_src-6.2.12/typo3/sysext/core/Classes/Error/ErrorHandler.php in line 101. 56 TYPO3\CMS\Core>Error\ErrorHandler::handleError(2, "Invalid argument supplied for foreach()", "/var/www/htdocs/typo3_src-6.2.12/typo3/sysex...ility/UpdateScriptUtility.php(111) : eval()'d code", 180, array) 55 ext_update554c89b982462::getPluginsWithOldConfiguration() 54 ext_update554c89b982462::access() [...]</pre>	
As you see I am using TYPO3 in the latest LTS version 6.2.12	
How we can fix this?	
Thanks, Patrick

History

#1 - 2015-05-10 09:57 - Xavier Perseguers

- Status changed from *New* to *Needs Feedback*

Seems you are referring to [#64435](#) with the commit you mention.

I cannot reproduce using master branch, so please use it from https://git.typo3.org/TYPO3CMS/Extensions/file_list.git since the patch was meant for the git version, not for the 1.1.0 version from TER and give feedback if it solves the problem.

#2 - 2015-05-26 08:05 - Xavier Perseguers

- Status changed from *Needs Feedback* to *Closed*

- Assignee set to *Xavier Perseguers*

- % Done changed from *0* to *100*

Already fixed in [#64435](#), version 1.1.1 is about to be released!
