Revision b1fe7bf4 - 2015-06-30 10:20 - Felix Kopp

[FEATURE] Introduce TCA > ctrl > descriptionColumn

Introduce annotation for table column fields "descriptionColumn". Is added in TCA > ctrl for tables. Optional setting. Defined table column that holds description / guidance for editors and admins within backend.

Description should only displayed in the backend.

Adds descriptionColumn to records that already hold internal description. This patch does not add new description table columns.
