

TYPO3.Flow - Bug #6914

Static Object Container cannot handle optional arguments in constructors

2010-03-18 18:42 - Karsten Dambekalns

Status:	Resolved	Start date:	2010-03-23
Priority:	Should have	Due date:	
Assignee:	Karsten Dambekalns	% Done:	100%
Category:	Object	Estimated time:	1.00 hour
Target version:	1.0 alpha 8	Complexity:	
PHP Version:			
Has patch:			

Description

For a class Bar with 4 optional constructor arguments the code in the static object container looks like this:

```
protected function c0294($a=array()) {  
    $o=new \F3\Foo\Bar($a[0], $a[1], $a[2], $a[3]);  
}
```

If the arguments are not provided this leads to undefined index errors. The default values should be used instead.
