

TYPO3 Core - Bug #69183

Story # 69712 (New): Further FormEngine development

Respect TCA option 'columnsOverrides' for server side field evaluations

2015-08-19 12:08 - Sascha Egerer

Status:	Closed	Start date:	2015-08-19

Description

With the TCA value columnsOverrides field configurations can be overwritten. This works for the Formengine stuff. The field evaluation with the eval option can also be overwritten. But only the client side evaluation respects this setting as this is rendered through the form engine. The server side evaluations are not respected as the `columnsOverrides` is not merged there.

This works:

```
$GLOBALS['TCA']['tt_content']['types']['text']['columnsOverrides'] = array(
    'header_link' => array(
        'config' => array(
            'eval' => 'trim,required',
        ),
    ),
);
```

This does not work (evaluating the the value is an email address which is done on the server side):

```
$GLOBALS['TCA']['tt_content']['types']['text']['columnsOverrides'] = array(
    'header_link' => array(
        'config' => array(
            'eval' => 'trim,required,email',
        ),
    ),
);
```

History

#1 - 2015-08-19 12:14 - Christian Kuhn

-1.

Please do not implement this now: the columnsOverrides is not handled in dataHandler systematically and it is also documented that columnsOverrides only works for FormEngine related stuff.

Please keep this situation until DataHandler was refactored.

#2 - 2015-08-19 12:19 - Gerrit Code Review

- Status changed from New to Under Review

Patch set 1 for branch **master** of project **Packages/TYPO3.CMS** has been pushed to the review server. It is available at <http://review.typo3.org/42762>

#3 - 2015-08-19 12:20 - Sascha Egerer

- Status changed from Under Review to New

Too late ;-)

#4 - 2015-08-19 12:22 - Sascha Egerer

@Christian

Would you give that -1 to the patch? I had it already done and just pushed it. So if you don't want it then please add you comments to the patch. Thanks.

#5 - 2015-08-19 12:29 - Gerrit Code Review

Patch set 2 for branch **master** of project **Packages/TYPO3.CMS** has been pushed to the review server. It is available at <http://review.typo3.org/42762>

#6 - 2015-08-26 08:35 - Sascha Egerer

Same problem at several other places (as I've expected it). So everything that is done on server side currently does not respect the setting. Doing something like

```
$GLOBALS['TCA']['tt_content']['types']['foo_base_contact_banner']['columnsOverrides'] = array(
    'records' => array(
        'config' => array(
            'allowed' => 'my_custom_table',
        ),
    ),
);
```

works in the Form but the record is never saved as it is evaluated on the server and then thrown away.

#7 - 2015-09-21 12:25 - Sascha Egerer

- Status changed from Under Review to On Hold

- Target version changed from 7.4 (Backend) to 7 LTS

Waiting for DataHandler refactoring

#8 - 2015-10-23 18:48 - Mathias Schreiber

- Target version changed from 7 LTS to 8 LTS

unlikely to be completely refactored until Nov 10th ;-)

#9 - 2016-08-09 16:44 - Sascha Egerer

- Parent task set to #69712

#10 - 2017-05-04 17:49 - Benni Mack

- Target version changed from 8 LTS to Candidate for patchlevel

#11 - 2017-10-26 10:34 - Benni Mack

- Status changed from On Hold to Needs Feedback

- Assignee changed from Sascha Egerer to Christian Kuhn

Hey Lolli,

could you state the opinion or the idea to solve (or not to solve) this issue?
