Description

The getTagNameForClass method in the abstract XSD generator class could not handle class names with more than two namespace parts.

This caused e.g. TYPO3\CMS\Fluid\ViewHelpers\Be\Buttons\CshViewHelper to not be transformed to "be.buttons.csh", but just "be.", which in turn cause duplicate id errors in the resulting XSD document.

Associated revisions

Revision 3d50d733 - 2015-09-02 09:41 - Helmut Hummel

[BUGFIX] Abstract XSD generator can handle more than two namespace parts

The getTagNameForClass method in the abstract XSD generator class could not handle class names with more than two namespace parts.

This caused e.g. TYPO3\CMS\Fluid\ViewHelpers\Be\Buttons\CshViewHelper to not be transformed to "be.buttons.csh", but just "be.", which in turn caused duplicate id errors in the resulting XSD document.

Make the code aware of more than two namespace parts.

Releases: master, 6.2
