Description			
they get different parameters now and this will again change in late 7 and early 8 phase. this deserves a dedicated .rst together with pointing to alternatives.

[BUGFIX] FormEngine: Custom functions

The patch adds a .rst file to document that the "low end" functions within FormEngine (type=user, userFunc, itemsProcFunc) now receive different data and that this may change during the development of version 8 again.

Additionally the patch adds a change to hand over the "parent" row for flex field processing, so itemsProcFunc for flex fields can at least access the parent row data if needed.

Resolves: #70132

Resolves: #70467

Releases: master
