

TYPO3.Flow - Bug #7049

PropertyMapper tries to change value objects when mapping

2010-03-29 12:51 - Karsten Dambekalns

Status:	Resolved	Start date:	2010-03-29
Priority:	Should have	Due date:

Target version:	1.0 alpha 8	Complexity:	
PHP Version:			
Has patch:			

Description

When the PropertyMapper receives data that ends up in an value object and it detects values to apply after reconstitution it tries to call map(). But value objects are immutable and thus have no setters, this ends up in mapping errors. it should build a new value object instead.
