### Description

As in [#66352](https://forge.typo3.org/projects/core/more/66352) mentioned, the option `formatToPageTypeMapping` has to be configured in `plugin.tx_myextension.settings.view.formatToPageTypeMapping` instead of `plugin.tx_myextension.view.formatToPageTypeMapping` which is the obvious logical location. The latter is also documented in [http://forge.typo3.org/attachments/download/26372/TYPO3-v6-2-whats-new.english.pdf](http://forge.typo3.org/attachments/download/26372/TYPO3-v6-2-whats-new.english.pdf)

This could be resolved by changing the constant when fetching the configuration:

```php
// current
SETTINGS = $this->configurationManager->getConfiguration("TYPO3\CMS\Extbase\Configuration\ConfigurationManagerInterface::CONFIGURATION_TYPE_SETTINGS, $extensionName);

// resolution
SETTINGS = $this->configurationManager->getConfiguration("TYPO3\CMS\Extbase\Configuration\ConfigurationManagerInterface::CONFIGURATION_TYPE_FRAMEWORK, $extensionName);
```

IMO this is a bug, but resolving it would be a breaking change for extensions. I'll push a possible solution to gerrit to discuss it there.

### Associated revisions

Revision 4e9f8109 - 2017-12-09 23:51 - Christian Futterlieb

[BUGFIX] Move option formatToPageTypeMapping

Move the option `formatToPageTypeMapping` from
`plugin.tx_myextension.settings.view.formatToPageTypeMapping` to
`plugin.tx_myextension.view.formatToPageTypeMapping`

and deprecate the usage of the wrong location.
