Images are missing, even on stage. They should be located in *fileadmin/ter*.

Currently tested:

- Page 23 - TER Browser
  - Listing of extensions
  - Detail view of extensions
  - Download (Can't find file, perhaps related to dev environment?)
  - Filter is missing and belongs to SOLR integration. [#70701](#)
- Page 118 - Manage own Extensions
  - Edit Extension
  - Register Extension
  - Transfer Extension (not fully as we have to test with remote connectivity)
  - Delete Extension (not fully as we have to test with remote connectivity)
- Page 602 Upload Extension Just the same as 118 above
- RSS — #35299 So call it like

Untested:

- Page 521 Extension Reviews (Looks like the indexAction of ReviewController is missing atm, same is true for live. I've asked about it in slack:  
<https://typo3.slack.com/archives/t3o/p1444897488000026>)

- JSON — Looks like it's not implemented yet according to #56462, #35299 and <https://forum.typo3.org/index.php/t/204908/> on production the output, if I'm using the right URL, is also not valid:
