#### Description

Follow up: [#68756](#)

The TypoScript reference update for stdWrap\_bytes function should mention the base property is ignored if a keyword is used in the label property or something like that, as documented by GeneralUtility::formatSize function.

Thanks for your finding!

Can you update the docs yourself? This is a separate project via GitHub (if you're on docs.typo3.org there is a "Edit me on github" button and you should be all set)

Thanks again!
