Description			
Hello Core-Team, in case of restructuring the TCA all values for selct-fields are of type array now. I know, we can't revert it, but we have to update the related code. Example: InlineRecordContainer::renderForeignRecordHeader() at line 358 we have following: <code>\$valueParts = GeneralUtility::trimExplode(' ', \$rec[\$titleCol]);</code> In my case the field was declared as type "inline", so \$rec[\$titleCol] returns an array now, which results in following warning: PHP Warning: explode() expects parameter 2 to be string, array given Stefan

[BUGFIX] Adjust renderForeignRecordHeader to array

The FormDataProvider refactoring changed DB values from strings to arrays when used with select fields. The code usage in InlineRecordContainer is adopted to use the new data structure.

Resolves: #70951

Releases: master

Stefan, can you please provide a patch for that and push it to Gerrit? It seems that you already had changed these things on your side, so why not just pushing it to the accordant place at review.typo3.org? Thx! :)

Patch set 1 for branch **master** of project **Packages/TYPO3.CMS** has been pushed to the review server.
It is available at <https://review.typo3.org/44254>

#3 - 2015-10-24 16:51 - Christian Kuhn

- *Parent task set to #69617*

#4 - 2015-10-25 07:16 - Stefan Froemken

Hi Olli,

I only have mentioned one example and I have titled it as "Example". How many problems of this case we have in TYPO3 Core? 50? 100? Since the refactoring I just have found two of them and solved one. With this ticket I wanted to start a task to search for further problems of this type. So IMO this ticket is not solveable with a 3 letter change.

So what's next? Should I/We/Community create a new patch for each kind of this problem? If yes, than you're right and I can solve and push a solution within seconds.

#5 - 2015-10-25 07:59 - Gerrit Code Review

Patch set 2 for branch **master** of project **Packages/TYPO3.CMS** has been pushed to the review server.
It is available at <https://review.typo3.org/44254>
