Description

If adding e.g. a news plugin on a page and click on the suggest wizard of the storage page a error 500 will be thrown.

The problem is somewhere in typo3/sysext/backend/Classes/Form/Wizard/SuggestWizard.php inside the searchAction method.

Just doing this:

```
$uid = (int)(isset($parsedBody['uid']) ? $parsedBody['uid'] : $queryParams['uid']);
```

,I thing is not such a good idea, because in case of a new record $parsedBody['uid'] contains a string like "NEW12345", which will result in a wrong uid if force it to an int.

Revision 90bfb31f - 2015-10-31 14:14 - Thomas Maroschik

[BUGFIX] Suggest wizard does not work on new records

The suggest wizard gets it's parameters via a POST json
body. Inside there is the current record uid given,
which follows the scheme "NEW{random number}". For whatever
reason the wizard casts this uid to an integer which results
in a 0. The following check for a numeric uid fails in the
case of a new record, as it is always numeric because of the
cast.

This patch removes the cast. No further sanitizing is necessary
as the uid is casted in every further use case where appropriate.

Resolves: #71056
Releases: master
