

TYPO3 Core - Feature #71306

Drop "Protocol" field from page type "Link to external URL"

2015-11-04 09:20 - Christian Weiske

Description	
In #5369 it was decided that the protocol selector dropdown (http://, https://) should be removed. It's time to implement that. It's confusing that I can't simply paste an URL into the field and manually have to remove the protocol.

Revision d072cfa9 - 2017-08-25 16:32 - Benni Mack

[!!!][TASK] Use protocol in pages.url and migrate pages.urltype

The field pages.urltype contains "0", "1", "2" which maps to a protocol, however most people want to just paste the url in the "pages.url" field.

This change drops the DB field "pages.urltype" and merges the value into "pages.url" directly.

Resolves: #71306

Releases: master
