

TYPO3.Surf - Feature #71359

Packaging should not be executed for each node

2015-11-06 09:14 - Thomas Blaß

Status:	Accepted	Start date:	2015-11-06
Priority:	Should have	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
Currently the initialize and package stages are executed for each node which is only time and resource consuming with no advantages. I would suggest that the initialize and package state is executed only once for the deployment.

- Status changed from New to Accepted

Not very easy to implement, but makes sense.

Development of TYPO3 Surf now moved to Github. If you think this is still relevant, please open a bug report or feature request here:
