#### Description

The TypoScript property forwardSearchWordsInResultLink is used by Indexed Search (see typo3/sysex/ext/indexed\_search/Classes/Controller/SearchFormController.php). However, this word currently is not getting highlighted in t3editor.

Add it to the list of recognized words, please!

The xml file with all code completion is totally outdated (4.x) and needs a lot of manual work to bring again up to date.

Considering the issue [#81885](#), I close this one for now.

Custom adoptions to codemirror is getting dropped in version 9 and no further changes will be done for TYPO3 CMS 7.x & TYPO3 CMS 8.x.

If this decision is wrong, please reopen or let me know and I will do.
