Description

Remove `cObj->isClassAvailable()` as this class was introduced in TYPO3 4.3 before autoloading was there.

Now, with TYPO3 CMS 7, autoloading is completely done via `spl_autoload_register` and `class_exists()` does the autoloading automatically, both in composer-mode and non-composer-mode.

The method is therefore removed as the fallback is pre-historic and a simple `class_exists()` check is added.
