It can be tested with current bootstrap package and v8. Just try to add new content element.  
As bootstrap package has something like:

```
array(  
    'LLL:EXT:bootstrap_package/Resources/Private/Language/Backend.xlf:content_element.texticon',  
    'bootstrap_package_texticon',  
    'i/tt_content_header.gif'
```

),
