<b>Description</b>			
According to the Feature <a href="#">#35891</a> it would be nice to override an existing icon. so e.g. this should work for imageorient type = 26 which is Besides Text, Left			
<pre>TCEFORM.tt_content.imageorient { 26.altlcons = ../fileadmin/templates/html/images/ce_team.png }</pre>			
Thx Stefan

#### Revision 881906ee - 2021-04-16 12:38 - Oliver Bartsch

[BUGFIX] Restore altlcons TSconfig option

In #35891 a feature was introduced, which allowed to override the icon of select items via Page TSconfig.

This feature however did more or less never see the LTS release, since it was almost completely removed in #67006 again.

Only SelectMultipleSideBySide provided this feature until <https://review.typo3.org/c/Packages/TYPO3.CMS/+50879/>.

It's now restored, using the original configuration path.

### #1 - 2016-02-11 21:43 - Wouter Wolters

- Status changed from New to Needs Feedback

Which TYPO3 version are you using?  
According to the feature request you reference this should already be possible

### #2 - 2016-02-12 08:30 - stefan schreck

Hi  
Thanks for the feedback.  
I am using 7.6.2  
I know that the feature exists.  
And it works for newly added Items.  
But it doesn't override existing ones.  
Even if I remove 26 and re-add it again it won't work at all.

```
imageorient {
    removeItems = 1,2,9,10,25,0,8,17,18
    altIcons {
        ### DOESN'T WORK
        26 = ../fileadmin/templates/html/images/ce_team.png
    }
    addItem {
        ### WORKS
        100 = LLL:fileadmin/templates/Language/locallang.xlf:backend.Mitarbeiter
        100.icon = ../fileadmin/templates/html/images/ce_team.png
    }
}
```

Best + Thx

### #3 - 2016-03-08 15:05 - Mathias Schreiber

- Parent task set to #69617

### #4 - 2016-04-25 19:55 - Christian Kuhn

- Parent task changed from #69617 to #69712

### #5 - 2016-06-11 21:11 - Riccardo De Contardi

- Status changed from Needs Feedback to New

I performed a test with the latest 8.2 master; as far as I can see:

```
TCEFORM.tt_content.imageorient {
    addItem.100 = Value
    addItem.100.icon = fileadmin/icon.png
}
```

works, while

```
TCEFORM.tt_content.imageorient {
    altIcons.26 = fileadmin/icon.png
}
```

does not work.

Further notes:

- The online documentation <https://docs.typo3.org/typo3cms/TsconfigReference/latest/PageTsconfig/TCEform/Index.html> does not mention altIcons
- the changelog .rst file (/typo3/sysext/core/Documentation/Changelog/master/Feature-35891-AddTCAItemsWithIconsViaPageTSConfig.rst) reads as example:

```
TCEFORM.pages.doktype.addItem {
    13 = My Label
    13.icon = EXT:t3skin/icons/gfx/i/pages.gif
}
TCEFORM.pages.doktype.altIcons {
    123 = EXT:myext/icon.gif
}
```

But the altIcons property only works on the following condition:

```
"config type=select, maxitems > 1, renderType=selectMultipleSideBySide set"
```

(thanks to W.Wolters and S.Moog that helped me digging the code)
