Description

Added this configuration for typolink. Once the page is selected and clicked the save button the values and not properly not updating.

TYPO3 Version 7.6.3

```
<config>
  <type>input</type>
  <size>30</size>
  <eval>trim</eval>
  <softref>typolink,typolink_tag,images,url</softref>
  <wizards>
    <_PADDING>2</_PADDING>
    <link>
      <type>popup</type>
      <title>Link</title>
      <module>
        <name>wizard_element_browser</name>
        <urlParameters>
          <mode>wizard</mode>
        </urlParameters>
      </module>
      <icon>link_popup.gif</icon>
      <script>browse_links.php?mode=wizard</script>
      <params>
        <!--<blindLinkOptions>page,file,folder,url,spec</blindLinkOptions>-->
      </params>
      <JSopenParams>height=500,width=500,status=0,menubar=0,scrollbars=1</JSopenParams>
    </link>
  </wizards>
</config>
```

Any updates ?

#2 - 2017-04-03 21:11 - Christian Kuhn

- Status changed from New to Closed

the link wizard **does** work in v7, please check your config. Additionally, there are plenty of examples in the wild, for instance in the v7 version of ext:styleguide. in v8, the wizard has been dropped and substituted with a 'inputLink' renderType. That should simplify the configuration a lot.

I hope it's ok if i close the issue for now. If you still think that's a core bug, please open a fresh issue.
