#### Description

Even in 2016, some hosters still create MySQL databases with the default character set latin1. As TYPO3 does not enforce UTF-8 when creating tables or fields, we should at least have a report that warns administrators about a wrong charset.

#### Associated revisions

##### Revision dc6a8734 - 2016-03-04 16:04 - Andreas Wolf

[FEATURE] Report wrong database character set

This adds a new report to the reports module that checks if the MySQL database uses the right character set.
