Description	
After upgrading to Typo3 6.2.22 it is impossible to create subcategories to existing (sys_)categories.	
Selecting a parent node in the tree select causes a yellow exclamation mark claiming something to be wrong and saving is not possible anymore.	
After downgrading to 6.2.21 the error disappeared.

Revision dc06bd58 - 2016-04-29 14:13 - Alexander Bigga

[BUGFIX] Allow maxitem=1 in TCA treeSelect again

Introduced with ec7b229 #75519, it was not possible to set maxitem=1 to TCA treeSelect. This occurs e.g. on setting the parent of a sys_category.

The reason is the "selected" array which gets initialized with all selected items. If there is no item selected, it is initialized with an empty value and "selected.length" is 1 but should be 0. Selecting a new value is impossible now.

The proposed patch checks if items are selected or not on initialization.

Change-Id: I0c8d21ad753dccb2d993febde404afc83a39b9b3

Resolves: #75947

Releases: master, 7.6, 6.2

History

#1 - 2016-04-27 14:50 - Klaus Moser

After unchecking a parent node no checkbox is checkable anymore. In 6.2.22 the select treeview is currently in an unusable state.

#2 - 2016-04-27 15:29 - Ruben Schmidmeister

This problem only seems to occur with **maxitems** set.

In my tests (with sys_category) I encountered the following situations:

- maxitems: 1
1 item is selectable, but an exclamation mark appears when selected. When unselected, no item is selectable.

- maxitems: 2
1 item is selectable, if the tree is loaded with 1 item preselected 2 items are selectable.

- maxitems: 3
2 items are selectable, if the tree is loaded with 1 or more items preselected 3 items are selectable.

- maxitems: n
(n - 1) items are selectable, if the tree is loaded with 1 or more items preselected n items are selectable.

(If the tree is loaded with some items preselected and all items are deselected n - 1 items are selectable).

#3 - 2016-04-27 15:48 - Alexander Bigga

I encountered the same issue. This issue is caused by fix for [#75519](#) (Flexform select rendermode tree doesn't respect collapsed nodes).

I've just made an online patch and will commit it in the next minutes.
