#### Description

Hi,  
if you go to the module "filelist" and create a folder "\_recycler\_". Deleting of normal files works fine. But ...  
if you try to delete the "\_recycler\_" folder itself, it leads to an php error:

```
Uncaught TYPO3 Exception  
#1: PHP Warning: rename(<path>/fileadmin/introduction/images/_recycler_,<path>/fileadmin/introduction/images/_recycler_/_recycler_): Invalid argument in .../typo3/sysex/core/Classes/Resource/Driver/LocalDriver.php line 953 (More information)
```

#### Tested with

- 8.3.0-dev (current master)
- 7.6.10-dev (current HEAD)

Both with the same error (just the line number differs a little bit).

##### Revision c51983ba - 2016-07-19 21:53 - Steven Cardoso

[BUGFIX] Allow deletion of File Recycler in fileadmin

This patch deletes a file recycler instead of trying to move it into itself by renaming. The patch respects the user settings for recursive deletion.

Resolves: #77091  
Releases: master, 7.6
