| Description | | | |
| Currently the widget parameter is generated deep in the fluid code and it isn't possible to override this with a own 'static' value. | | | |
| Possible use-cases: | | | |
| 1) have 2 optional widgets in the same plugin | | | |
| 2) have 2 same plugins with a widget on the same page | | | |
| Example of this with a proof of concept: | | | |
| https://bitbucket.org/franssarissaris/fs_media_gallery | | | |
| Template with 2 pagination plugins. | | | |
| First widget: | | | |
| https://bitbucket.org/franssarissaris/fs_media_gallery/src/4cc650d85668069c24884ff4cb60b2fcc3ad5ee1/Resources/Private/Templates/MediaAlbum/NestedList.html?at=master&fileviewer=file-view-default#NestedList.html-21 | | | |
| Second widget: | | | |
| https://bitbucket.org/franssarissaris/fs_media_gallery/src/4cc650d85668069c24884ff4cb60b2fcc3ad5ee1/Resources/Private/Partials/MediaAlbum/NestedList/AlbumsList.html?at=master&fileviewer=file-view-default#AlbumsList.html-10 | | | |
| Adjusted AbstractWidgetViewHelper | | | |
| https://bitbucket.org/franssarissaris/fs_media_gallery/src/4cc650d85668069c24884ff4cb60b2fcc3ad5ee1/Classes/ViewHelpers/Widget/AbstractWidgetViewHelper.php?at=master&fileviewer=file-view-default#AbstractWidgetViewHelper.php-214 | | | |
