Description			
When you change an element in a workspace, the backend PageLayoutView still shows the live-element instead of the workspace element.			
Steps to reproduce:			
1. install workspace extension and create a workspace			
2. create an element in live-worksapce			
3. Change title of element in draft workspace.			
4. column-view still shows the live-title instead of workspace-title of the element.			
This bug was introduced with ff8499cece24ee6739796427f34d0a0bf8b05d95, it works correctly with the commit before.

[BUGFIX] Fix incorrect shown elements in a backend workspace

getResult is not called anymore on the result set from the database.

Resolves: #77744

Releases: master

Change-Id: I36b52eb0e27eba0651c851e9d3e3830ee45b74ed

History

#1 - 2016-09-01 12:01 - Robert Vock

In the commit, where it still worked, getResult was called on the resultset:

<https://github.com/TYPO3/TYPO3.CMS/blob/ff4a0a09ecd6a756b9c9bad55748c58ce1ae7296/typo3/sysex/Backend/Classes/View/PageLayoutView.php#L1158>

This was removed when changing to doctrine:

<https://github.com/TYPO3/TYPO3.CMS/blob/bd121574f500948bd1463b3516bae4141c24e8f2/typo3/sysex/Backend/Classes/View/PageLayoutView.php#L1175>

Now getResult is never called.
