[TASK] Manual require_once of crawler removal

The crawler is still included via a require_once in indexed_search, even though the class loader since TYPO3 6.2 does that transparently.

So, the method is still called, which makes it impossible to move EXT:crawler lib to a different location inside the extension.

The patch removes the call to the method, as the autoloader fetches the file anyway.

It also deprecates the method call within EXT:indexed_search.

Resolves: #78679

Releases: master
