#### Description

If you have 2 languages and you want to export the single list view to a CSV file, only the translations respects the table header defined in the single table view.

The original records are ordered according to the DB table structure.

In this case the CSV export feature is not usable at all.

##### Revision 220db6ee - 2017-01-01 10:25 - Nicole Cordes

[BUGFIX] Ensure correct field ordering in CSV export

Due to patch <https://review.typo3.org/48998/> the whole database record is fetched from the database instead of only the visible fields. This screws up the CSV export as this on relies of the field sorting of the database row. This patch ensures a correct sorting of the row fields before they are added to the CSV export.

Resolves: #78908

Releases: master, 7.6

#### History

##### #1 - 2016-12-12 12:17 - Thomas Scheibitz

This is not a language problem. I have the same problem when I export be-users if I check the following fields:

Username, Group, Email, Disable, Admin

TYPO3 Version: 7.6.14

**#2 - 2016-12-12 21:05 - Thomas Scheibitz**

- File *be\_users\_121216-2001.csv* added

Here the exported file with the wrong ordering.

I test it, the mistake is since 7.6.12
