Description Hello everyone, is it possible to integrate an option to recover the password of a backend user via email or something else? Are there reasons against this feature? Since one and a half year I have waited. Now it's time to open a feature request :) Thanks, Nico

History

#1 - 2016-12-09 17:00 - Riccardo De Contardi

could this be related? #50168

#2 - 2016-12-12 08:34 - Nico Wellner

I'm not sure. The last post of Clemens Riccabona is related, but the hole Feature is about the documentation.
By the way, what extension did he mean?

#3 - 2016-12-12 09:59 - Riccardo De Contardi

I don't know... I guess it is https://typo3.org/extensions/repository/view/cdsrc_bepwreset

#4 - 2016-12-12 14:19 - Nico Wellner

Thanks, sounds good. I will give it a try.
Will this feature be integrated into the core soon?

#5 - 2017-01-15 21:03 - Georg Ringer

It won't make it into 8 as release is already at 4.4.2017.

- Related to Feature #80793: provide configurable password policies added

#8 - 2019-03-03 12:59 - Susanne Moog

This would immediately solve #50168 - however we decide to continue I'm going to close the other issue so we can consolidate the discussion here.

#9 - 2019-10-25 15:27 - Riccardo De Contardi

- Related to Feature #89513: Provide password recovery for backend users added

- Status changed from New to Closed

I close this issue in favor of [#89513](#) that already contains a patch (<https://review.typo3.org/c/Packages/TYPO3.CMS/+62073>). Please continue the discussion there and test it;

If you think that this is the wrong decision please reopen it or ping me. Thank you.
