

TYPO3.Flow - Feature #7930

Show versions in package list

2010-05-27 08:29 - Michael Schams

Status:	Resolved	Start date:	2010-10-11
Priority:	Could have	Due date:	
Assignee:	Karsten Dambekalns	% Done:	100%
Category:	Package	Estimated time:	0.00 hour
Target version:	1.0 alpha 13	Complexity:	
PHP Version:			
Has patch:			

Description

The "FLOW3 Command Line Interface" offers a functionality to list available and active packages. In current FLOW3 version 1.0.0-alpha8 the list shows the names of the packages only.

At least the versions of the available packages would be useful and informative - for example:

```
./flow3 package list available
```

Available packages:

FLOW3	1.0.0-alpha8
DocumentationBrowser	1.0.0-alpha8
Fluid	1.0.0-alpha8
ExtJS	3.2.1
Party	1.0.0-alpha8
Welcome	1.0.0-alpha8
Kickstart	1.0.0-alpha8
PHPUnit	3.4.0_1
Testing	0.5.0-alpha8
Conference	
SwiftMailer	4.0.6

The attached diff extends the PackageManagerController.php to show version numbers (from "Meta/Package.xml") in "available packages" view. Please treat this diff as an example/suggestion only (e.g. it cuts the package name at 24 characters), more sophisticated solutions are desirable :-)
