Description
Solves the following issues:

- Namespace declarations included in output when rendering templates without sections
- Handle potential array input for sanitizePath

Also allows removal of two custom Fluid integrations in TYPO3.

Revision 66e5430e - 2017-02-22 19:38 - Claus Due
[TASK] Update Fluid dependency to version 2.3.1

Solves three issues:

- Namespace declaration output in templates without sections
- Potential error from unexpected input argument in sanitizePath
- Rendering of new HeaderAssets / FooterAssets sections in uncompiled templates.

Adds two Fluid features:

- Namespace detection is now in sync with TYPO3 CMS.
- Escaping modifier `{escaping off}` now supported.

And allows the removal of two custom Fluid integrations contained in TYPO3 which are now included in Fluid.
