Description	
To bring the CMS Fluid integrations closer to vanilla Fluid implementations we need to deprecate support for render method arguments.

Revision 3848b738 - 2017-06-13 13:34 - Claus Due

[TASK] Deprecate render method arguments on ViewHelpers

Deprecates usage of arguments on render methods and refactors the abstract ViewHelper class to avoid injecting ReflectionService in every ViewHelper, calling on it only when the ViewHelper actually requires it.

Safe removal since the DI property is declared private and thus cannot be accessed in ViewHelper classes.

Revision 36696a35 - 2017-07-03 08:01 - Andreas Fernandez

[BUGFIX] Do not force int cast of pageUid in f:link.action

Since #81213, the `pageUid` argument is cast to an int. If that

parameter is omitted, pageUid becomes 0. UriBuilder is able to determine the page uid by itself, but for this, \$pageUid must be null.
