

TYPO3 Core - Bug #81297

Extbase record preview leads to 404 due to missing cHash

2017-05-22 14:56 - Mathias Brodala

Description	
With #78002 the cHash is enforced for Extbase plugins if arguments are present. This however breaks the record preview feature since it does not add a cHash argument but uses no_cache instead.	
A possible fix could be #78336 which adds an option to enable cHash calculation for record preview URLs.

Revision 0aa5f2b4 - 2018-01-03 20:19 - Georg Ringer

[BUGFIX] Make it possible to add cHash to preview links

It must be possible to generate preview URLs with a cHash, e.g. to display records using Extbase which enforces cHash usage.

Introduce a new option "useCacheHash" which triggers cHash calculation. If not specified, the "no_cache" parameter is added just like before.

It needs a decision whether to keep it as breaking feature or turn it into a non-breaking bugfix. But I'll probably just go ahead with the latter since there is nothing to lose.
