Description	
Hi, It would be nice to have a possibility to link to specific content element - not just to a complete page for "Shortcut" pages. Basically something similar to "Link Wizard", but for internal pages only.

Hi! Is this the same issue? [#46138](#)

#2 - 2017-05-30 16:25 - Riccardo De Contardi

I think I was wrong; the issue [#17406](#) fits better.

#3 - 2017-05-30 16:33 - Viktor Livakivskyi

Yes, [#17406](#) is the right one, this one can be closed as duplicate then.

@Viktor Livakivskyi thank you for your quick answer; closing this as a duplicate (I add a reference from here to [#17406](#) to keep track of it, anyway).
